Portfolio: <https://bit.ly/3gISsOl>

Full Stack Web Developer with a Digital Media Production degree and experience in the live events, media, and television industry. Recently earned a certificate in Full Stack development from the University of Kansas with new skills in JavaScript, jQuery, CSS3, HTML5, MySQL, NoSQL, Node.js, React.js and responsive web design. Self-motivated problem solver that is flexible working with a team or individually and always striving to learn and find new creative challenges everyday.

Technical Skills

HTML5, CSS3, JavaScript, jQuery, Node.js, MySQL, NoSQL, Heroku, Bootstrap, Bulma, GIT, GitHub, Adobe Creative Suite

Projects

Exploration Food | Link to Github: <https://bit.ly/3fOu8th> | Link to Deployed Project: <https://bit.ly/2XSDvli>

Front-End Developer

- Exploration Food Selective Recipe App designed to match the needs of all diets and food restrictions. Great for those with allergies, religious restrictions, or are simply particular about their food.
- As a Front-End Developer on this project I worked on the wireframing, overall layout and functionality of the website.
- **HTML, CSS, JavaScript, jQuery, Bulma**

Weather Dashboard | Link to Github: <https://bit.ly/33QXjJS> | Link to Deployed Project: <https://bit.ly/3fUOelG>

Full-Stack Developer

- Simply type in a city around the world in the search bar and the Weather Dashboard will come up with the current and future weather information.
- Working on the Front and Back end of this project required a simple Bootstrap layout and incorporating the API with jQuery.
- **HTML, CSS, JavaScript, jQuery, Bootstrap, OpenWeatherMap API**

Day Planner | Link to Github: <https://bit.ly/3agYBPi> | Link to Deployed Project: <https://bit.ly/3agYMdq>

Full-Stack Developer

- This planner application will allow you to schedule events for any 9am-5pm work day.
- This application was put together using HTML and CSS and runs smoothly with jQuery.
- **HTML, CSS, JavaScript, jQuery, Bootstrap**

Experience

May 2018 - March 2020

Harvest Productions, North Kansas City, MO - Lead Video Technician

- Lead video for live event productions such as conferences, expos, concerts, sporting events, and shows.
- Communicated with clients for Audio and Visual troubleshooting, maintenance, and content creation.

April 2019 - January 2020

Major League Baseball, Kansas City, MO - Data Operations

- Video Room Monitor for home and away teams during Royals games at Kauffman Stadium.
- Statistical tracking during Royals games.

January 2016 - January 2018

KMOS-TV, Warrensburg, MO - Producer

- Television studio production, filming, and editing for shows *Pause*, *Show-Me Ag*, *Lowdown*
- Live television filming and replay for University of Central Missouri sporting events.

Education

- **University of Kansas BootCamp - Full Stack Web Development**, Lawrence, KS
 - An intensive 6 month long boot camp dedicated to designing and building web applications. Skills learned consisted of HTML5, CSS3, JavaScript, jQuery, Bootstrap, Node.js
- **Bachelor of Science - Digital Media Production degree**, University of Central Missouri, Warrensburg, MO
 - Graduated May 2018 with a minor in Sports Communication and specialized coursework in Video & Audio Production, Media Promotions, Digital Video Editing, HTML & CSS Basics
